Greetings once again and welcome to another edition of "HIPComix Happenings", your best source for news and information on bondage, mind control, catfight, and superheroine peril erotic comics on the web!

The seasons are changing and HIPComix would like to announce its new winter schedule which will take effect in a couple of weeks. Here is how it shapes up:

Sunday – Finister Foul and Doctor Robo
Tuesday – Jpeger
Wednesday – Free Area Updates
Thursday – Bada Boom and Morpheus (alternating)
Friday – Timo and Sturkwurk (alternating)

You may have noticed a new name on the roster. We are happy to announce the addition of "Morpheus" to our fine staff of artists and writers. We will be spotlighting this talented newcomer in a future edition of HIPComix Happenings, so keep an eye out for that!

This week HIPComix has a whole slew of fresh adult themed comics starring some of your favorite heroines in all sorts of perilous situations. They are as follows...

From DOCTOR ROBO and FINISTER FOUL:

It is the beginning of the end for the Superheroine Squad. No fewer than NINE sexy-as-hell members of Metrobay's elite crimefighting unit have been captured by the evil machine known as Sentius and transformed into mindlessly obedient human robots. These poor souls have been programmed to help their new master gain control of first the city, then perhaps the entire world. This we know to be true.

Now, as the story ascends toward its inevitable climax, Doctor Robo and Finister Foul are proud to present the final installment in the "Superheroine Squad – Twisted Tales" saga... Episode 10: "Night of the

Drones"!

It is not an overstatement to say that this may be the most important issue in the entire "Superheroine Squad" series, for many reasons:

We know that Ms. Metrobay is attempting to break into Sentius's factory and free her enslaved teammates from the maniacal machine's depraved domination. We also know that someone (or something) has gotten the drop on her and confronted her face to face. So who is this individual? A friend? Foe? Stranger? You have to be a member to find out!

Your humble creative team has promised a hot new character for the December 2nd issue. For the chronologically impaired, that is THIS SUNDAY! So the question remains: Who is OMEGA WOMAN?

<http://free.hipcomix.com/gallery2/v/2007memberspreviews/TheMetrobayUniverse/album127/This+is+Omega+Woman>

Is she a friend of the Superheroine Squad? Maybe she is an agent of APEX Labs? Or, is she something else entirely? Perhaps she is the 'secret weapon' Ted Twiss was talking about, or maybe she is the one who is stalking Ms. Metrobay! The only way you will find out is to join HIPComix!

We're not done yet! If you have been following the story you know that Marcy and Mechana made a deal with the devil and recruited the former Dr. Twisted to help them defeat Sentius. Max Indeks has caught wind of this little treaty and has taken his top two agents to stop them. Now the two teams are on a collision course, and the fate of Metrobay may very well hang in the balance!

Whew... that's a lot going on. To see all this and much more check out "Night of the Drones", coming this and every Sunday exclusively to HIPComix.com!
