This is a terrific show; we never miss an episode. That place has a real cast of characters, in addition to Duff. Mary Alice, the office manager, has a wonderful sense of humor and is sort of the den mother to the rest. Sous Chef Geof, the skinny guy with the beard, is a genius with cakes, and always gets the tough assignments. He has a very dry sense of humor. A personal favorite is Katherine, a shy-ish girl with great legs.

Their cakes are always very creative, and you can see at gallery of photos at the bakery's website <http://www.charmcitycakes.com/>
