I've put my pictures up on Webshots today... here's the URL. I hope you don't mind that I borrowed the two photos you took of John and me and stuck them at the end of the album, because obviously I couldn't point the camera at myself! I'm sorry you lost your other pics. Were they the beachy ones I saw?

Forgot to say that I have no problem with you using any or all of the pictures in the album. We should put together a group album somewhere so that we have them for next year's gathering.

Pam S.
