Larry,
I was never Yappin Wolf. I'll introduce myself proudly upon my entrance, and proceed kick you right between eyes - to your face. I don't need to hide Larry. Any idiot (except you) could have figured out that Ilarbed is Debra Li spelled backwards - dumbass. And in the end, I felt so sorry for you that I spilled the beans on purpose. You think I really care that you say you rae going to sue me? I'd love to go to court with you Larry so that I could mace you in the lobby. Warn your attorney that I am a rabid, crazy bitch. Send me his name so we can talk about you. Me and about 500 others on these forums all hate your guts. I've had problems with you, Whitewolf, and Fran Crimi. I can live with that - and I dont think thats so bad. You on the other hand are universally hated. You've been banned everywhere. Ive been banned on your site. Someone else stole my ID at AZ and got me banned over there. I had nothing to do with that and I just got another screen name and continued on with NO problems. What you did to me over there DIDNT WORK. You can't win Larry, because you are so stupid. You're an idiot. You are fighting with me now because you want to. You provoked me over and over and over, all the while I begged you to stop, I begged you to reconsider. Others have seen my efforts to not fight with you. But you want to fight., Let's do it. BTW... after all the nasty, vulgar, ugly things you have called me, I still proudly get in your face and say... YOU'RE A PEDOPHILE. Sue me, you pussy crybaby bitch.

thats about 500 we know of and lord knows how many millions of lurkers I might add
